 84.8% Light Return
 Angles for R.I. = 1.62
 77 facets + 16 facets on girdle = 93
 1-fold, mirror-image symmetry
 96 index
 L/W = 1.436 T/W = 0.677 T/L = 0.472
 P/W = 0.606 C/W = 0.228
 H/W = (P+C)/W+0.02 = 0.855
 P/H = 0.710 C/H = 0.267
 Vol./W^3 = 0.452

NOTE: The pavilion point may need tweaking in on a very large stone. There is an extremely minute chisel point (P19) that will not be apparent in most stones. Cut pavilion to center point.

MASTERS STONE DESIGN FOR USFG 2002 SINGLE STONE COMPETITION

The stone is to be cut in TOPAZ, clear or any color (it can be irradiated).

STONE WIDTH to be 8mm to 11mm. There will be an allowed margin of 0.1mm + or - without deduction. Three 100% errors will be deducted if the width is outside of the margin.

GIRDLE THICKNESS to be 0.3mm + or - 0.1mm without deduction.

Girdle will be polished and judged under the same categories on the score sheet as all other facets. Two other categories are specifically designated for the girdle alone. They are GIRDLE THICKNESS and GIRDLE UNIFORM. §
